

# professional+ 100 induction

An AGA Company

**Those with a 100cm wide niche to fill will love the new addition to our popular Professional+ collection.**

Bridging the gap between our 90cm and 110cm wide Professional+ induction range cookers, the new 100cm version shares the sleek modern lines of its contemporaries with a few extra treats thrown in. Like the other range cookers in the Professional+ series, the new 100cm model exudes top-end features. Of particular interest to busy cooks is the new tall cavity oven, which boasts an incredible 81 litres total capacity. The induction hob includes five cooking zones with power boost option for extra control and flexibility, and 2 pre-determined power levels which are set at optimum temperatures for melting butter and simmering vegetables.

## Colours Available:

Black

Cream

Stainless Steel

Cranberry
