Easy freezer maintenance

Thanks to this fridge freezer's Low Frost technology, less frequent defrosting is needed than with standard systems. And with hardly any ice forming in between the shelves, defrosting and cleaning is quick and easy.

Because bottles should stay upright – not on their side!

No more spills! The bottle holder on the balconies of the refrigerator door keeps your bottles in a stable, upright position so they can't fall over and leak.

Check what's in your freezer at a glance

No more opening and closing freezer drawers to check what's inside – these are transparent, so you can see what you have in stock at a glance.
