Soak programme:

The soak programme provides a rinse to prevent dirt from drying.

CRYSTAL:

The crystal cycle is a particular programme designed especially for delicate dishes with light dirt.

Eco:

Eco, this economic wash programme uses a low amount of water and energy in order to provide the most environmentally friendly cleaning option.

RAPID 27 MINS:

A new quick programme which takes just 27 minutes, suitable for a lightly soiled load.

Eco:

Eco, this economic wash programme uses a low amount of water and energy in order to provide the most environmentally friendly cleaning option.

Delicate Quick:

A quick programme ideal for delicate loads.

Normal Quick:

A quick programme ideal for loads without stubborn dirt or dried on residue.

Auto 45°- 65°:

The auto programme regulates the length of a cycle depending on the need for a pre-wash and the number of rinses required.

HYCLEAN:

When the HYCLEAN option (or Ultracleanse programme) is selected, the dishwasher performs a final 10 minute rinse at a high temperature of 70°C, eliminating virtually all bacteria to achieve the highest possible standards of cleanliness. The Hyclean option can be selected with almost all cycles at temperatures above 50°C.

Super Quick:

The super Quick programme is suitable for removing stubborn dirt fast.
