Expect even, every time

Achieving even results time after time demands precisely controlled heat, distributed consistently throughout your oven. Unlike standard ovens, the SurroundCook oven's advanced fan technology ensures that every part of your dish is getting exactly

Heat activated catalytic cleaning

The catalytic lining absorbs the grease from cooking and is activated by regular heating to 220°C. The grease residue is oxidised leaving the catalytic surface clean.

Cooked evenly everywhere

With this oven, using energy efficiently also means cooking efficiently. It has a new convection system called Hot Air, which ensures hot air circulates evenly throughout the oven cavity. The result is that the oven heats up faster and cooking temperatures can be
