

Kitchener 110 Ceramic

First launched in 1830, the Kitchener set the standard for range cooking. It does today, too.

Designed and built by William Flavel, the son of our company's founding family, the Kitchener proved an instant success and graced the kitchens of royalty throughout the world. Today, the Kitchener is still highly sought after. Available in two widths, with a separate grill compartment and two oven cavities, there is plenty of room to cook for all the family.

KEY FEATURES

- A rated ovens giving the best possible energy efficiency
- Ceramic hob, with "hot hob" indicators for added safety
- Handyrack, adjustable rack attached to oven door making it easy to tend to roasts
- Catalytic liners, the cook clean liners absorb fat and steam during cooking, and release these deposits to the base when above 200°C, ensuring that the oven is kept as clean as possible with the minimum effort
- Timer, for added peace of mind when cooking unattended
- Storage drawer, for storage of pots and pans
- Porthole door, making it easy to check on food without having to open the oven door
