The LC-65XUF8772ES is an 4K Ultra High Definition Smart LED TV with exceptional picture quality.

Despite the extremely slim design of only 7.5 mm on the top of the TV XUF8772 offers very high sharpness of the picture due to the advanced RGBW panel obtained thanks to the application of the advanced MSE algorithms that improve differences of brightness between specific pixels. The quality picture is accompanied by the high quality sound from the two-way speakers and the independent amplifier dedicated to low-tone drivers.
