Height	1720mm
Width	790mm

Features & Benefits

Design quality
Our fridges are designed and built using quality materials. We use real stainless steel on our fridges and solid glass for shelving as well as in our wine cabinet doors.

Humidity control
Your fruit and veges need different environments. The humidity control slides in each storage bin create a microclimate that helps keep food fresher for longer.

Designed to match
With their premium handle styling and stainless steel finish, our fridges are designed to match the rest of Fisher & Paykel's kitchen appliance family.

Water on tap
The slimline dispenser makes it easy to fill almost any sized jug or vessel with cool filtered water and doesn't take up any storage space in your fridge.

Easy Living
These fridges adapt to suit your lifestyle with accessible SmartTouch controls, flexible shelving and storage options, and slide-out bins and trays.

Easy Cleaning
Removable, spill-safe glass shelves are easy to clean and contain drips and spills. Storage bins and EZKleen stainless steel doors just need a wipe to keep spotless.

Internal Ice Maker
The internal ice maker delivers fresh ice into a dedicated bin that can be customised to store different volumes or turned off to free up freezer bin space. Ice Boost mode temporarily increases ice production by up to 30 per cent.

Ultra-Slim Water Dispenser

The slimline water dispenser is easy to use. Angled water delivery means that almost any size or shape of vessel can be filled, while taking up no storage space in your fridge door. The black dispenser finish reflects the styling of Fisher & Paykel's family of kitchen appliances.
