The compartment that can chill or freeze

Whether ingredients need chilling or freezing, select the optimal temperature with the MultiSwitch drawer. Positioned between the fridge and the freezer, this independent compartment can be set from -18° to 7°. It has complete flexibility to preserve every item in the ideal conditions.

Nature's freshness preserved

A stunning meal starts with impeccable ingredients, lovingly sourced and prepared fresh from the earth. Our TwinTech® system ensures your produce is stored at the optimum temperature and humidity levels, meaning fruit and vegetables stay crisp and fresh for longer, ensuring the flavours that nature

Preserve the nutrients of fresh ingredients

Preserve the nutrients, flavour and colour of produce with UltraFresh. The sealed crisper drawer maintains the best humidity level, removing all excess condensation. Preventing anything from shrinking or drying out. So ingredients are at their freshest and most vibrant, day after day.

Stable temperatures for longer-lasting freshness

This fridge freezer makes the most of new technology to keep your food ready to eat for longer. MultiFlow technology provides a uniform flow of air throughout the fridge freezer and protects your food from sudden temperature or humidity changes, to ensure long-lasting freshness.

Product Specification
