- Microwave output power: 1.00kW
- Grill power: 1.50kW

#### Nominal power: 3.30kW

- Supply can vary depending on usage, please consult a qualified electrician for ampere requirement

### Functions

## Main oven

### Safe Cook:

Smeg ovens incorporate safe cook, the system for closed door grilling to keep cooking smells inside the oven and ensure a safe cooking environment.

### ECO-logic:

option allows you to restrict the power limit of the appliance real energy saving.

### Child lock:

some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.

### Double glazed doors:

Double glazed doors are featured on some Smeg appliances

### Air cooling system:

to ensure a safe surface temperatures.

## Auxiliary oven

### Grill element:

For rapid cooking and browning of foods. Best results can be obtained by using the top shelf for small items, the lower shelves for larger ones, such as chops or sausages. For half grill heat is generated only at the centre of the element, so is ideal for smaller quantities.

### Microwave:

Penetrating straight into the food, microwaves cook very quickly and with considerable energy savings. Suitable for cooking without fat, they are also able to thaw and heat food without altering its original appearance and aroma. The microwave function can also be combined with conventional functions with all the resulting advantages. Ideal for all types of food.

### Microwave + grill element:

To achieve a combined cooking with grill that cooks the outside whilst assuring an internal cooking thanks to the microwave function.

### Defrost by time:

The circulation of air enables quicker thawing of frozen food, without the use of any heat. The microwaves power will be automatically varied to achieve the best thawing results.

### Defrost by weight:

The circulation of air enables quicker thawing of frozen food, without the use of any heat. The defrosting time will be calculated based on the food's type and weight and the microwaves power will be automatically varied to achieve the best thawing results.

**Regenerating reheat:**

This function allows to reheat food that has already been cooked and conserved in the fridge.
