This washing machine provides superior fabric care and wash performance with 16 different wash profiles designed to care for every type of load.

White

Dimensions

Depth	620mm
Height	850mm
Width	600mm

Features & Benefits

Wool and Sports cycles

Our Wool cycle has a Woolmark™ guarantee so you can wash your woollen garments with confidence. The Sports cycle starts washing with cold water that gently heats up, stopping mud and stains from setting into the fabric.

Intelligent washing

Our world-first SmartDrive™ technology uses a motor that constantly provides feedback to a computer which controls the tumble and spin action, resulting in a quicker, quieter and more reliable wash.

Time saving

The Time Saver option activates a special temperature profile and unique tumble sequence. This speeds up your wash cycle, saving you precious time for the more important things in life.

Interior light

A handy interior light turns on when you open the washer door, providing improved visibility inside the drum.

Easy clean

Keeping the inside of a front loader clean is essential to prevent the build-up of unpleasant smells and mould. Use the Gasket Flush cycle to remove dirt and lint.

Stain removal

The Soak option carries out a one-hour soak and tumble cycle to help lift stubborn stains from various fabric types, saving you from hand washing.

Timed Liquid Detergent Dispenser

Designed with a dedicated liquid detergent dispenser that ensures liquid detergents are distributed into the wash at exactly the right time to optimise wash performance.

Wool and Sports Cycles

The Woolmark-approved wool cycle cleans gently and beautifully. The 2kg capacity is generous enough to wash your woollen knitwear and delicate baby garments.

Specifications

Consumption

Annual Energy Consumption	150 kWh/year
Annual Water Consumption	9200 L/year
Energy rating	A+++
Water Consumption l/cycle	42 L

Main Features

Capacity (dry load)	9 kg
