

ZDT24004FA Dishwasher

A flexible clean for all shapes and sizes

Our dishwasher has customisable compartments that can fit dishes of all shapes and size. Simply adjust the racks and lift the basket to load and clean everything at once, reducing the need for multiple cycles.

Set the dishwasher to start when it suits

The delay function lets you start your dishwasher cycle at a time that's convenient – whether three, six or nine hours ahead. Meaning you can clean dishes when it suits you and unload them when you have the time or energy. It's ideal for taking advantage of off-peak rates, or running a programme when hot water isn't required elsewhere.

Clean dishes, green conscience

The special sensor in our AutoWash feature detects how much cleaning your dishes need. Using just the right amount of water, energy and detergent to do the job properly. Meaning dishes are cleaned in the most eco-friendly way possible.
