Congratulations on your purchase

And welcome to our growing gang of savvy shoppers

We're on a mission to bring you extraordinary bathroom products, for less. From modern to traditional style ceramics, plus the gorgeous fixtures, fittings and furniture to match. So, you can fall in love with your space every single day.

As one of the UK's largest independent bathroom stores, we've received countless awards; including the National Business Awards UK, the Digital Entrepreneur Awards and being placed on The Sunday Times Fast Track 100.

We hope your new product exceeds your highest expectations. However, if you experience any problems, please:

- call our friendly UK call centre on **0330 390 3062** (9am-7pm Monday to Friday, or 10am-4pm Saturday and Sunday), or
- send us a message via **customerservices@buyitdirect.co.uk**

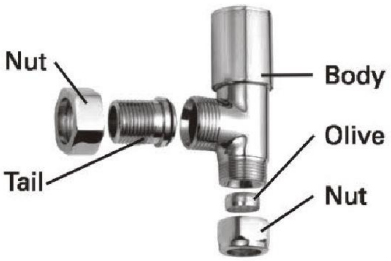

Important information

- Please read these instructions thoroughly and retain for future reference

- Please ensure that the product is checked for damage prior to installation, any damage reported after installation will not be covered. Please retain all original packaging in case your item is to be returned.
- The pipework must be flushed out to remove any debris which can affect the function of this product.

Parts

Please note that Parts are for illustrative purposes only and may differ slightly to the actual product

Supplied as a pair, either of the above valves will include the following parts-

2 x Body

2 x Olive

2 x Tail

4 x Nut

Please note: Prior to installation, check that all the illustrated contents are present and correct.

Tools required

Spanner

Allen Key

PTFE tape (Sealing tape)

Installation

It is advised that the installation of these valves is carried out by a fully qualified plumber or advice is obtained for a suitable qualified person or plumber.

Please note: Before starting any installation, turn off the water supply.

First, ensure that the radiator is clean from debris before you start to install the valves and in conjunction with the valves, follow the radiator or towel rail installation as per the manufacturer's instructions.

1. Wrap PTFE tape clockwise around the tail thread then screw the threaded end into the radiator or towel rail.

2. Tighten the nut (on the tail thread) using an appropriate tool, usually an Allen key.

3. Attach valve and by hand and turn it to the correct position then tighten using an appropriate tool, usually a spanner.

4. Insert the pipe (at this point you will have already prepared the water supply pipes to match up with the radiator or towel rail and valve dimensions). Then tighten the nut (with the olive already in place) that holds the pipe in position.

5. Repeat for the other side then run the central heating to the radiator.

Cleaning

To maintain the surface finish of your product, wipe clean after every use, using a clean damp cloth, a mild detergent mixture can be used. Do not use abrasive cleaning agents or materials on the product surface.

If any harsh chemicals come into contact with the surface of the product during bathroom cleaning, rinse off immediately, wipe clean and dry.
